core execution

Migrations and modernization

FY26 AI Business Solutions Opportunity and Partner GTM

Agentic AI is driving the next wave of business transformation

\$47.1B

By 2030

The AI agent market will grow from \$5.1B in 2024.

33%

By 2030

Enterprise software applications will include agentic AI, up from less than 1% in 2024.

>15%

By 2030

Day-to-day work decisions will be made autonomously through agentic AI, up from 0% in 2024.

66% of M365 Copilot Incremental Revenue influenced by partners in FY25

82% Partner Influenced Usage of M365 Copilot

AI Business Process Total Addressable Market (TAM)

Category	Total Addressable Market (\$B)	Total Addressable Market (\$B)	CAGR
	FY25	FY28	3-Year
Customer Experience	\$25	\$38	 15%
Service (Including CCaaS)	\$40	\$63	 16%
ERP	\$40	\$69	 20%
Low Code (Apps + Auto)	\$31	\$46	 14%
Total	\$135	\$216	 17%

Market/Subsegment aligned FY24-H2, data source updated FY25-Q2, Cloud is an approximation

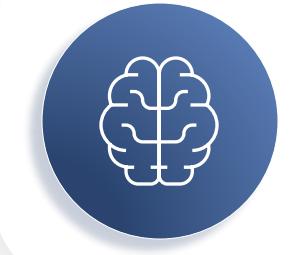

Category: Gartner Report: Gartner Subsegments

- Customer Experience: CRM: Sales
- Service: CRM: Customer Service and Support
- ERP: FMS Components, Procurement Supply Chain Execution (SCE), Supply Chain Planning (SCP), Enterprise Asset Management (EAM), Manufacturing & Operations (M&O)
- Low Code: Low-code Application Platforms (LCAP), Robotic Process Automation (RPA), Citizen Automation & Development Platform (CADP), Process Mining

FY26 AI Business Solutions Plays and Partner GTM

AI Workforce Solution Plays

Copilot and Agents at Work

FY26 Copilot and Agents at work Customer Opportunity

Acquire

New Customers

Acquire new customer, Drive penetration with Copilot Paid licenses or Copilot MAU

Monetize

Unpaid Users

Land Copilot for all leading with Copilot Chat targeting Information workers and Frontline workers

Grow

Existing Customers

Drive extensibility with agents scenarios associated with high impact business impact scenarios

Copilot and Agents at Work: Customer Win Formula with GTM Support

Customer Outcome	Provide AI led business transformation benefits to Customers through Partner led solutions and services that meets the evolving needs of businesses and supports their digital transformation journeys	Partner Outcome	Win customer by advise, deploy, extend and drive adoption of Copilot for all
-------------------------	--	------------------------	--

Differentiated Partners Capabilities

- Be the AI & Copilot Advisor to Business decision makers
- Get customer ready for Copilot addressing data security and privacy
- Deliver end user Copilot adoption & change management
- Extend Copilot with integrations and customization

Win Formula aligning to MCEM

1 Listen & consult

Build Pipeline
Position Wall-to-Wall **Copilot** coverage for all users
Target customers and execute campaigns

2 Inspire & design

Design Solution
Build intent by delivering **immersive customer experiences**, like prompt-a-thons

3 Empower & achieve

Win Deal
Enhance Copilot with **Agents experiences to transform business process**

4 Realize value

Deploy/Drive Usage
Land **business value** and **ROI** with healthy usage
Address data security and privacy while driving end user enablement

5 Manage & optimize

Drive Expansion
Align with MSFT sellers to drive **upsell** and build business case for expansion
Extend business value with 3P ISV extensions
Claim Partner of record for Copilot (CPOR)

Copilot +Power Accelerate

Copilot Specialization

July 2025 launch

A new specialization is proposed that will look to differentiate partner capabilities in Copilot, including **Copilot for Microsoft 365, Copilot Chat, Copilot Studio and agents**. Partners with this specialization should be able to help their customers with the following areas:

- ✓ AI + Copilot Advisory services
- ✓ Assess readiness and deliver secure deployment plan
- ✓ Copilot adoption + change management
- ✓ Extensibility with agentic focus

Prerequisite

Attain the **Solutions Partner designation in Modern Work, Business Applications or Security**

Performance requirements

1,000 MAU growth of Microsoft 365 Copilot in TTM (CPOR, CSP Tier 1, 2)

5 M365 Copilot net customer growth in TTM (CPOR, CSP Tier 1, 2)

Skilling requirements

5 people with [MS-102](#) M365 Certified: Enterprise Administrator Expert

5 people with cumulatively:

SC-401: Implement Information Protection in Microsoft 365

OR

APL-4002: Prepare security and compliance to support Copilot for Microsoft 365

5 people with APL-7008: Create agents in Microsoft Copilot Studio

Customer references

Provide three customer references which must include **at least one example of transforming business process with agent implementation.**

- Key partners for Co-sell

- Access to GTM Investments

- Build with support

Copilot Jumpstart training requirements

FY26 H1 (July to December)

Starting July 2025

*MS-102 4 total certified individuals (to meet future Copilot Specialization requirements)

To graduate to or retain Prioritized Tier (10 trained per area; trained resources can count against multiple markets; TTM)

(Sales) Copilot Business Value Bootcamp
DW-100
aka.ms/DW-100
6 hours

(Technical) Innovate with M365 Copilot and build your own agents
DW-101
aka.ms/DW-101
12 hours

(Technical) Build & extend AI-powered copilots with Copilot Studio
DW-102
aka.ms/DW-102
12 hours

(Pre-Sales) Secure & Govern Copilot for M365 with Microsoft Purview
DW-103
aka.ms/DW-103
4 hours

(Technical) Build and extend your own agents using pro-code capabilities
DW-104
aka.ms/DW-104
12 hours

*MS-102 M365 Certified: Enterprise Administrator Expert
aka.ms/MS-102

To graduate to or retain Ready Tier (5 trained per area; trained resources can count against multiple markets; TTM)

(Sales) Copilot Business Value Bootcamp
DW-100
aka.ms/DW-100
6 hours

(Technical) Innovate with M365 Copilot and build your own agents
DW-101
aka.ms/DW-101
12 hours

(Technical) Build & extend AI-powered copilots with Copilot Studio
DW-102
aka.ms/DW-102
12 hours

Prioritized Tier
Total training hours per resource = 46 hours (10 sales, 36 technical)

Ready Tier
Total training hours per resource = 30 hours (6 sales, 24 technical)
TTM – Training taken over Trailing Twelve Months will be counted, unless there is new training content

Scale with Cloud and AI Endpoints

FY26 Scale with Cloud and AI Endpoints Customer Opportunity

W365 expansion

Follow up with customers who tried or piloted W365

AVD Expansion

Follow up with AVD customers with low ACR for expansion

OnPrem VDI/RDS migration

Target accounts using virtualization either via Windows RDS or a legacy VDI vendor

Windows to Cloud Migration

Customers currently using Windows Enterprise and Intune (prerequisite) on a local device, who could benefit from running Windows in the cloud

Scale with Cloud and AI Endpoints: Customer Win Formula with GTM Support

Customer Outcome

Securely deployed Cloud based Windows 365 and applications across Azure Virtual Desktop for secure AI-powered productivity and development on any device.

Partner Outcome

Drive deployment and usage in Enterprise; Monetize on deployment and usage services opportunity with W365, Intune suite and AVD for application development, and secure endpoints.

Differentiated Partners Capabilities

Create virtualization opportunities across W365 & AVD

Drive pre-sales activities via secure migration opportunity and app modernization projects to win deals

Drive Virtualization migration and deployment through Partner Incentives and One Azure Program

Drive Virtualization expansion to additional users and nurture customer skilling and environment growth

Win Formula aligning to MCEM

1 Listen & consult

Build Pipeline

Converged Communications: AI-enhanced Smart Workplace

FY26 Converged Communication Customer Opportunity

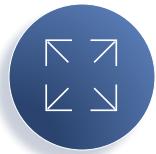

Modernization of legacy platforms

Customers using Office 2016/2019 or legacy CUCM/AVAYA systems are prime targets for Teams Phone and Teams Rooms migration

Secure AI Collaboration

Organizations facing increased security and compliance demands, especially regulated industries are ideal candidates for Teams Premium

Hybrid Work Optimization

Target Enterprise customers with distributed or hybrid workforces to position Teams Rooms and Microsoft Places to optimize space utilization and meeting quality

Copilot Attach Expansion

Accelerate expansion by bundling Teams Phone + Copilot offers

Converged Communications: Customer Win Formula with GTM Support

Customer Outcome

Empower hybrid teams to work smarter and more securely by unifying calling, meetings, and collaboration with AI-powered experiences through the Smart Workplace

Partner Outcome

Expanding and accelerating Teams Phone Market Share by leveraging the Teams base & leading with AI and the differentiated value of Copilot to secure revenue and consumption

Differentiated Partners Capabilities

Uncover communication gaps and co-create a vision for AI-powered collaboration

Drive pre-sales activities to showcase Teams Phone, Rooms, and Premium w/ Copilot integration

Expanding cross-workload value realization to integrate AI into calling and meeting workflows

Drive rapid time-to-value and long-term customer success to retain and accelerate expansion

Win Formula aligning to MCEM

Sales Advisor (Lighthouse)

Joint Territory Planning is Microsoft's new field-partner model for SMC-E sellers to engage directly with partner sellers early in the sales cycle.

Enables SMC-E sellers to help connect, plan and share leads/unqualified opportunities through Partner Center.

Promotes early engagement and helps enable the creation of customized offerings.

Strengthens collaboration among PDMs, PSS, SME&C sellers, and partners.

SMC-E sellers gain the ability to engage directly with partners sellers.

Partners Commitments for Joint Planning

Keep engaged with shared leads in Partner Center

Use the Leads tab > Planned Items to take action (accept or decline leads) within 14 days.

Collaborate with MSFT sellers to drive opportunities

Seek assistance from Microsoft SME&C seller by transforming the referral into a Co-sell opportunity.

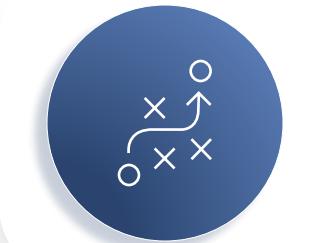

Track performance from engagements

Review leads details and performance to determine next best action and have regular discussions with your PDM/PSS.

Keep the feedback loop

Share your experience and ideas to improve to foster mutual growth.

AI Business Process Solution Plays

Sales Transformation with AI

AI is helping reimagine Sales

\$36B

By 2026

CAGR
+15%

40%

Of sales teams will
use AI for CX by
2027

Source: Microsoft internal analysis, Gartner Research

AI-first sales teams will deliver better results:
GenAI is fundamentally changing how CX teams deliver personalized experiences at scale. Late adopters risk losing deals to the competition

Buyer expectations are evolving fast:
Buyers are increasingly looking for a digital-first experience going deep into the sales cycle necessitating CX teams to retool

Not all AI is built the same:
Customers need help from trusted voices in the partner community to help identify AI platforms that deliver CX results and fit into their unique tech stacks

Sales Transformation with AI: Customer Win Formula with GTM Support

Customer Outcome

Create a sales function powered by an AI-driven application, delivering increased win rates, enhanced productivity, and a reduced total cost of ownership

Partner Outcome

Highly profitable Sales practice that drive impactful and sustainable sales transformation and provides exceptional delivery quality

Service Transformation with AI

The forces driving service transformation

Platforms are converging

60%

By 2028 60% of customer service and support organizations undergoing technology transformation projects will opt for a unified customer service and support suite, up from less than 5% today.¹

Smart service, higher value

14–17%

The business value provided by generative AI (GenAI)-enabled customer service and support (CSS) applications will let providers command a price uplift of 14% to 17% through 2028²

AI doesn't just assist, it acts

80%

By 2029, agentic AI will autonomously resolve 80% of common customer service issues without human intervention, leading to a 30% reduction in operational costs³

Digital labor is the new teammate

82%

of leaders say they'll use digital labor to expand workforce capacity in the next 12–18 months⁴

¹Gartner, Innovation Insight: Unified CRM CEC and CCaaS Lays Foundation for Future of Customer Service, 19 February 2025

²Gartner, Forecast Analysis: CRM Customer Service and Support Software, Worldwide, 11 March 2025

ERP Transformation with AI

The cloud ERP market continues to grow

\$90.5B

By 2026

CAGR
+17.5%

57%

SMCs Plan to
increase ERP
spending²

Transformation to AI-first Organization:

Gen AI and agentic AI are catalysts to drive business processes but are not built for on-prem. AI is top reason for spend increase and new selection criteria

Evolving market and user expectations:

real-time insights, hybrid work support, UX, tech debt reductions, industry specific innovations, scalability, security, compliance

A competitive vendor landscape:

Expansion to new market segments, rapid product innovation, end of support for on-prem

Source: Gartner® Forecast Analysis: Enterprise Application Software, Worldwide, 2023-2026 (Published 2024). Calculations performed by Microsoft

Innovate with Low Code AI and Agents

The low code AI and agent market is transforming

\$47.1B

AI Agents market size by 2030¹

80%

enterprises with mature automation practices will pivot to a consolidated platform by 2029

33%

Of enterprise software applications will include agentic AI by 2028²

1B

IDC projects 1B new logical applications by 2028³

Consolidation of Automation Platform:

82% of leaders say this is a pivotal year to rethink strategy and operations, with 81% expecting agents to be moderately or extensively integrated into their company's AI strategy in the next 12–18 months⁴

AI Adoption Acceleration:

24% of leaders say their companies have already deployed AI organization-wide.⁴ By 2027, 80% of automation platforms will offer AI-assisted development.

Microsoft offers end-to-end low code tools

In a market with a growing list of hundreds of stand-alone products, Microsoft offers differentiated value with composable product architectures, generative AI (GenAI) capabilities and integration catalogs.

1. World Economic Forum. (2025, May 23). Here's how to pick the right AI agent for your organization. <https://www.weforum.org/stories/2025/05/ai-agents-select-the-right-agent/>

BC Partner Differentiated Capability View

BC Partner Differentiated Capability View				
	Drive AI adoption and built-in Agent usage	Cross-Sell Business Central to M365 customers through intentional lead gen activities	Increase sales and delivery capacity with repeatable offerings	Migrate legacy ERP customers to Business Central
Initiation	GenAI Advisory Advising customers on their entire GenAI strategy ladder up to business priorities.	AI first company Business Central accelerates an AI-first GTM by integrating seamlessly with Microsoft 365 to streamline workflows, enhance productivity with Copilot, and enable scalable, data-driven selling across SMBs.	Engagement Strategy Transform from a project-based services to a repeatable, subscription-driven model.	AI first company Help customers modernize outdated compete ERP systems or Microsoft OnPrem ERP by moving to them to Dynamics 365 Business Central.
Activation	Business Transformation Integrate AI and agent capabilities into Business Central by delivering envisioning workshops, showcasing in-context demos, and building transformation scenarios that align with customer needs.	Lean Generation Target high-propensity Microsoft 365 customers for Business Central using "Campaign in a Box" and BC Immersion Briefing assets to drive efficient cross-sell and lead conversion.	Change Management Plan Develop a change management plan to drive consistent adoption across marketing, sales, and delivery. Set clear adoption metrics, identify internal champions, and build a dedicated practice to scale success.	Demo & Proof of Concept Run envisioning workshops with demos and PoCs to highlight ROI and align solutions with customer goals. Use promotions to accelerate the sales cycle and help customers prioritize must-have vs. optional functionalities.
Impact	Business Value The business value of AI and agents in Business Central is to automate tasks, enhance decision-making, and drive productivity, helping customers operate more efficiently and partners differentiate their offerings.	Impact Measurement Track M365 base penetration and monitor up-sell and cross-sell performance.	Impact Measurement Boost lead generation, improve win rate, and grow sales.	Cloud Business Value Ensure a smooth transition and early adoption by guiding usage of cloud features and supporting users throughout onboarding.

Campaign in a Box (CiaB): A Snapshot

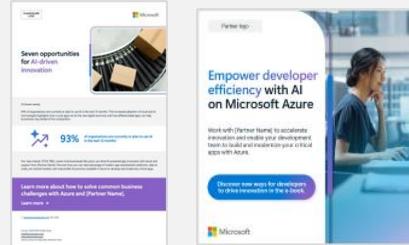

What is
CiaB?

- Ready to launch customizable campaigns
- Approved Microsoft value propositions, messaging and branding
- Aligned to Microsoft priority solution areas and industries
- Available to all Microsoft AI Cloud Partners
- Microsoft invests so that partners can GTM quicker and faster
- Drive top of the funnel leads through partner-led marketing

Example: Digital Marketing Content OnDemand Campaign | Build and modernize AI apps

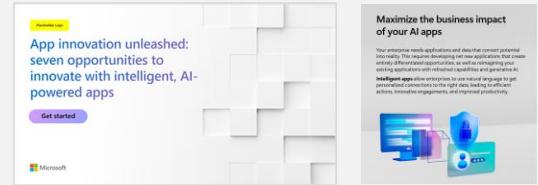

Build awareness

Demand gen email sequence, social assets/ads, Infographic, Thought Leadership

Acquire leads

E-book: App Innovation unleashed: seven opportunities to innovate with intelligent, AI-powered apps

Nurture opportunities

To-customer pitch decks

Two ways partners can leverage CiaB

1. [Partner Marketing Center \(PMC\)](#) -Downloadable customizable assets w/ execution guides

2. [Digital Marketing Center OnDemand \(DMC\)](#) -Platform to launch multi-week campaigns to generate new leads

What is SPARK Propensity?

SPARK: Solution play Propensity: Accelerate Revenue & KPIs

FY26 COVERAGE:

All Solution Areas

Mainstream Solution Plays

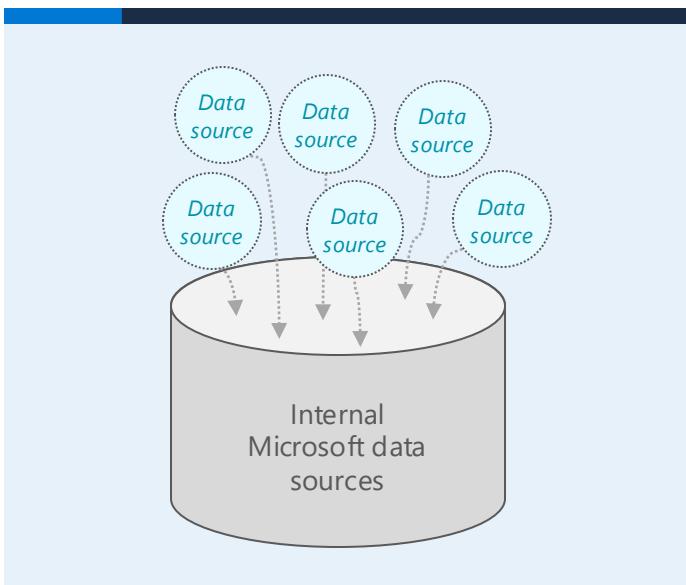

Enterprise & Corporate* Customer Segments

Eligible Partners[^] Partners

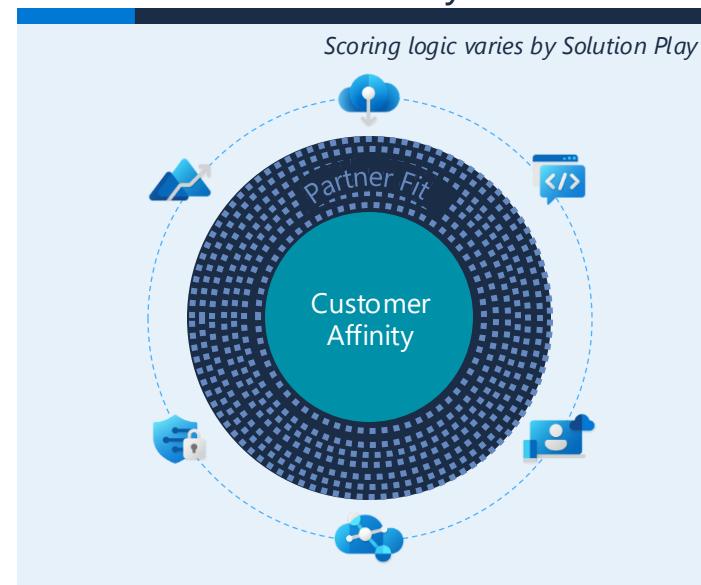

Intelligent data models which leverage telemetry data to predict a customer's likelihood of purchasing a Microsoft solution

How it works:

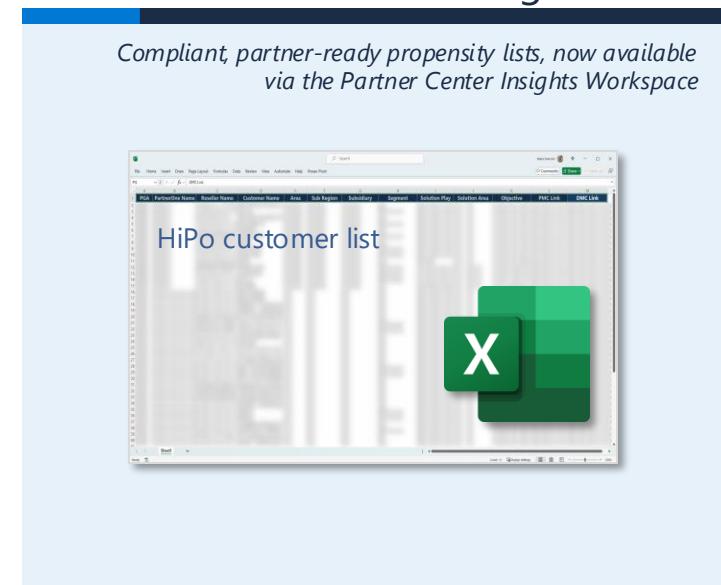

1 Aggregate inputs across Microsoft data sources

2 Assign propensity score based on affinity & best fit

3 Identify high-potential customers to drive growth

FY26 SPARK Propensity | Partner CTAs

SPARK: Solution play Propensity: Accelerate Revenue & KPIs

Benefits for partners:

- Increase sales velocity by targeting customers most likely to drive growth
- Stronger collaboration due to shared visibility between partner & MSFT roles
- HiPo customer opportunities are directly aligned to MSFT strategic goals
- Aggregated marketing resources to help easily find & leverage assets
- Dynamic propensity models are continually trained & improved

Getting started:

Visit [SPARK Propensity in Partner Center Insights](#) on MS Learn for info on:

- How SPARK models work
- How to download SPARK Propensity lists
- Customer targeting scenario CTAs

Partner Call to Action:

- 1 Download SPARK Propensity data from Partner Center
- 2 Review HiPo customer list with PDM & work together to prioritize execution
- 3 Leverage ready-made marketing assets with targeted HiPo customers (*i.e. CiaB*)
- 4 Work with PDM to monitor solution delivery performance & customer engagement

FY26 SPARK Propensity | AI Business Solutions (1/2)

FY26 Partner Performance Measurements

Partner Performance Measures

Envisioning & PoC and Deployment Accelerators

Partners must meet success rate on 33% of customers who receive an engagement. Success measures will be tied to revenue or usage growth and will be specific to each engagement.

Cap on Max Partner Earnings

Partner earnings are capped at the incentive initiative, with potential extensions based on partner success assessment and budget. Caps are set at different levels for Global and Regional SI partners.

Cap on Concurrent Engagements

Partners are capped on concurrent active Copilot + Power Accelerate engagements. Caps are set at different levels for Global and Regional SI partners.

Performance Criteria

- Claims monitored over a 12-month rolling window and will be measured monthly against quarterly milestones.
- Paused partners may resume participation once they meet the required success rates.
- Partners will be able to track their progress in Partner Center in the MPX dashboard.
- Assessment is done at the Partner One ID level, with a global center of excellence advised for partner monitoring their affiliate claims worldwide.

Copilot + Power Accelerate

Initiative summary

Consolidates M365 Copilot and Power Platform (low-code) investments into a single program. Partners can drive end-to-end AI transformation for customers and enable M365 Copilot, Chat MAU, agents with Copilot Studio or Power Platform solutions.

Engagement summary

- Copilot + Agents Immersion Briefings:** 1: many session to inspire and educate on Copilot and agent capabilities (half-day)
- Copilot + Power Envisioning & PoC:** 1:1 pre-sales engagements for activities like: identify use cases, build a business case, technical & security readiness, and deliver immersion and PoC.
- Copilot + Power Deployment Accelerator:** 1:1 post-sales engagements for activities like: Technical deployment, developing agent and/or Power Platform solutions, training users & ACM

Performance measures

New Partner Success control will require partners to achieve incremental **revenue growth in M365 Copilot, Copilot Studio or Power Platform**, or growth in **Copilot Chat usage** for completed engagements.

Engagement Portfolio

Size	Min Customer Size	Pre-Sales		Post-Sales

- Premium CSU Bundle (500):** \$37,500 for ENT and \$87,500 for SMC.

FY26 Commercial IAP Innovation Acceleration Program

IAP on a slide

Innovation Acceleration Program

IAP overview

IAP is a prioritization framework and an operating model to run our business.

It measures and guides the health of our selling & consumption efforts through MCEM, and consists of 2 key views across solution areas

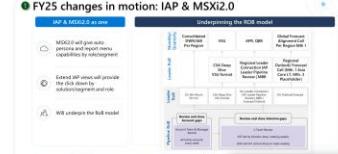

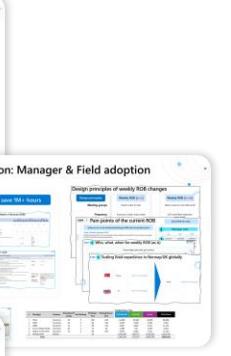

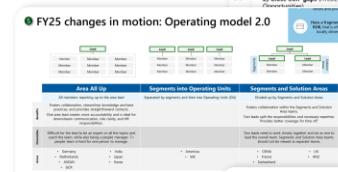

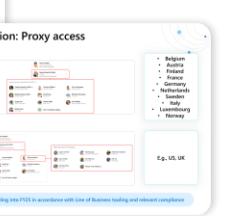

Keep up to date and get the latest dashboards, guidance, help and news from [the Portal](#)

FY26 Core Priorities

#	Core Priority Title	Core Priority <i>(What will you focus on in the upcoming period to drive impact for the business?)</i>	Critical Indicators of Success <i>(How will you measure success?)</i>
1	One Sales Execution	<p>Drive and guide consistent Sales Excellence discipline, governance and partner insights within and across Enterprise, GPS, ISD, SMC-C, SMB and roles in a unified approach.</p> <ul style="list-style-type: none"> Enable a coordinated MCEM rhythm of business (ROB) across segments, solution areas and roles with key partners such as Finance, Operations, etc. Support sales managers on executing sales principles, strategy, and expected outcome – steer towards quarterly activations on pipeline, top of funnel and usage, leveraging the power of IAP, MCEM and People. Enable clear guidance to field on landing segment and/or solution area strategic priorities. 	<ol style="list-style-type: none"> Oversee weekly process and rhythms to improve financial, solution area and segment critical indicators of success (e.g., VTB, VTF, M/M% growth, Y/Y% growth, SMC/B metrics), leveraging tooling. Drive MCEM sales stage coverage, progression and coaching needed to achieve budget – Enable coordinated engagement and conversion between segments, partner (with target coverage) and roles.
2	Business Health & Management	<p>Partner with leaders to prioritize pipeline management and accelerate revenue reliability, growth and accuracy.</p> <ul style="list-style-type: none"> Drive 'always on' rolling 5-quarter pipeline generation and progression through MCEM stages. On-point field engagement to ensure pipeline hygiene is maintained. Lead & partner with Sales Managers for pipeline health improvement and execution. Ensure pipeline management and forecast accuracy per MCEM standards. Drive strategic ECIF management and excellence. Deliver Usage Excellence and Top of Funnel as applicable. 	<ol style="list-style-type: none"> Provide rolling 5Q pipeline health and accuracy, supported with benchmarking via IAP. Embed Excellence into standard pipeline building motions & rhythms, including: Pipeline, Usage and Top of Funnel (Marketing Signal Conversion, Inbound Partner referral, Solution Play accelerators and LXP) Drive improvement to ECIF lifecycle execution – ensuring % spend utilization and returns.
3	Sales Execution Transformation and efficiency	<p>Land emerging/updated sales strategies, processes and objectives to drive sustainable growth and improved sales performance.</p> <ul style="list-style-type: none"> Drive efficiency & simplicity to enhance sales effectiveness. Support Sales Managers on seller expectations based on MCEM standards. Continue to work on areas of opportunity for segment transformation. Build a quarterly-weekly repeatable ROB in the business. 	<ol style="list-style-type: none"> Lead and evangelize adoption of MCAPS sales execution transformation initiatives (e.g., IAP, MSXi2.0, New Commerce, CSP etc.) – Enabling best practice sharing for leaders, managers and sellers. Provide business and deal level insights that help demonstrate strategic success, remove sales blockers, and underpin LT ROB. (Where applicable) Drive continuous improvement of % of engine & program capacity and investment utilization.
4	Agile planning	<p>Support execution of always on planning activities in partnership with segment, accounts and operational leadership.</p> <ul style="list-style-type: none"> Represent the segment on the overall planning processes. Drive or contribute to selected segment fiscal year planning activities. Enable Sales Excellence guidance. 	<ol style="list-style-type: none"> Provide Sales Excellence expertise continuously for operating model design, tooling and other planning activities that support business growth. Land FY strategies with local teams to support continued business growth (e.g., Q1 faststart, Red Carpet transition etc.).

FY26 Guidance in detail | E&O

E&O	Change	How is it changing	
SEL	1.1 IAP & MSXi2.0 – Role & Segment based views	<ul style="list-style-type: none"> Key Sales roles & Segments get curated, auto-persona, MSXi 2.0 landing page, report views and Co-pilot Sales Excellence enabled to orchestrate and drive business solution, segment and role performance 	
	1.2 IAP – Manager adoption and General Field use	<ul style="list-style-type: none"> Enhanced focus on driving Manager adoption of tooling and associated weekly rhythms Opportunity to save time and drive impact in the Field 	
	1.3 IAP – Usage Excellence	<ul style="list-style-type: none"> Accompanying billed and consumption, Sales Excellence enhance collaboration and orchestration on strategic usage Usage impact naturally flows into billed and consumption improvements 	
	1.4 IAP – Strategic ECIF	<ul style="list-style-type: none"> Sales Excellence leverage tooling to reinforce strategic ECIF insights Ensuring that the business gets the best investment and return from working with customers 	
	2 Proxy access	<ul style="list-style-type: none"> Proxy access standardized and enabled consistently WW Allowing lines of business tooling to be effectively used globally Change TBC 	
	3 Operating Model Guidance	<ul style="list-style-type: none"> Organisations prepared for review and standardization of Excellence into FY26 Functions becomes streamlined and easier to work with
